PROFESSIONAL SUMMARY

Dedicated Web Developer and IT professional with a strong foundation in building responsive and user-centric web applications, specializing in insurance and property management systems. Proficient in modern front-end frameworks like React.js and Vue.js, coupled with advanced skills in TypeScript, Tailwind CSS, and back-end technologies. Proven ability to develop complex features, optimize application performance, and collaborate effectively with cross-functional teams. Leverages laboratory technical support experience to deliver efficient and robust digital solutions.

WORK EXPERIENCE

Front End Web developer, Nanatec Limited 08/2025 – Present
Nairobi, Kenya

- **Engineered an interactive Family Tree module** to model and visualize complex familial relationships and dependencies within an insurance system. Designed hierarchical structures supporting beneficiary mapping and policy linkage, with drag-and-drop functionality and real-time updates.
- **Contributed to Rentivo, an apartment management platform** for managing rental properties, tenants, and maintenance workflows. Developed dashboards, booking systems, availability calendars, and inquiry interfaces to improve user experience and operational efficiency.
- **Developed front-end features for Azil, an insurance management system** supporting policy administration, claims tracking, and customer interactions. Built responsive dashboards and data-driven interfaces for clients and administrators.
- **Integrated RESTful APIs** to enable real-time data synchronization and seamless system communication.
- **Improved application performance through code refactoring**, lazy loading, and reusable component design.
- **Translated Figma designs into responsive, cross-browser compatible interfaces** using React.js and Vue.js. Used Git for version control in a collaborative development environment.

Lab Technician, USIU.AFRICA 09/2024 – 12/2024
Nairobi, Kenya

- **Assisted in the daily setup, configuration, and maintenance of computer lab** equipment and software, ensuring all systems were operational and ready for academic use.
- **Provided technical support** to students and faculty by diagnosing and resolving hardware and software issues, minimizing downtime and ensuring a smooth learning environment.
- **Managed and maintained the lab's inventory system**, accurately tracking equipment, monitoring usage, and ensuring proper allocation and accountability of resources.
- **Supported the planning and delivery of technical workshops** for students on various IT-related topics, helping to enhance their practical skills and understanding of key technologies.

Web development, Ipoint Technologies 09/2022 – 11/2022
Nairobi, Kenya

- **Designed and developed a fully functional e-commerce website** for jewelry purchases using HTML, CSS, JavaScript, and Bootstrap. Implemented responsive product listings, intuitive navigation, and user-friendly interfaces to enhance the shopping experience. Integrated features such as product display pages, shopping cart functionality, and visually appealing layouts to improve customer engagement and usability.
- **Built a modern restaurant advertising website** to showcase menus, services, and brand identity. Developed responsive pages with interactive elements, ensuring optimal performance across devices. Focused on clean UI design, engaging visuals, and clear content structure to effectively attract and inform potential customers.
- **Maintained and managed multiple websites**, ensuring they remained up to date, secure, and fully functional. Performed regular updates, debugging, and performance optimizations to enhance reliability, improve load times, and ensure a seamless user experience.

EDUCATION

Bachelors in Information Technology, Zetech University 09/2022 – 12/2024
Nairobi, Kenya

Diploma Information Technology, Zetech University 09/2020 – 12/2021
Nairobi, Kenya

SKILLS AND ACHIEVEMENTS

WEB DEVELOPMENT SKILLS

React.js, Vue.js, TypeScript, Tailwind CSS, HTML5, CSS3, JavaScript, Node.js, PHP, MySQL, Git, Figma, Web Development, Front-End Development, Back-End Development, Responsive Design, UI/UX Design.

IT SUPPORT SKILLS

- **Hardware Maintenance and Troubleshooting:** Diagnosing and resolving computer hardware issues, performing upgrades, and routine maintenance.
- **Software Installation and Updates:** Installing, configuring, and maintaining operating systems, applications, and software patches.
- **Technical Support and User Assistance:** Providing first-level support to users, resolving technical issues, and offering guidance on software and hardware usage.
- **Operating Systems:** Working knowledge of Windows and Linux environments, including system setup, user account management, and basic administration.
- **Preventive Maintenance:** Conducting routine checks and updates to ensure system reliability and minimize downtime.
- **Customer Service and Communication:** Effectively communicating technical information to users and providing timely support.

COMPUTER SKILLS

- **Microsoft Office Suite (Word, Excel, PowerPoint):** Creating, formatting, and managing documents, spreadsheets, reports, presentations, and data analysis.
- **Google Workspace (Docs, Sheets, Slides):** Collaboration, cloud-based document management, and real-time file sharing.
- **Internet and Email Management:** Professional email communication, web research, online collaboration, and file sharing.
- **Data Entry and Record Keeping:** Accurate data input, database maintenance, and organization of digital records.
- **File and Document Management:** Organizing, storing, retrieving, and maintaining electronic and physical documents.
- **Printing, Scanning, and Photocopying:** Managing office equipment and handling document reproduction processes.
- **Virtual Collaboration Tools:** Proficient in Zoom, Microsoft Teams, and Google Meet for online meetings, presentations, and remote collaboration.
